Elegant design. Remarkable performance

# 8510 SERIES BIFOLD DOOR SYSTEM

[www.BasikWall.com](http://www.BasikWall.com)

**BASIKWALL**  
GLASS MOVING WALL | DOOR & WINDOW

## 8510 SERIES BIFOLD DOOR SYSTEM

8510 Series offers exceptional performance without losing any aesthetic or function. Featuring a bottom rolling system, it eliminates pressure on the overhead beam.

The 8510 Series Bifold system represents timeless indoor-outdoor design. Their moveable wall system offers the most alluring features in aesthetics and performance using a unique concealed hinge design. The slim sightline and rails reduce visible hardware and maximize views with door hinges that are completely hidden to achieve a high-end and sleek look.

The 8510 Series provides superior thermal and structural performance using a 2mm thick thermal-break aluminum profile. The 8510 Series is perfect for areas with large openings, creating seamless transition between your indoor and outdoor space.

Compared to similar bifold door systems available on the market, the 8510 Series has superior quality, great value, and **fastest** lead time.
